

WEEKLY REPORT - 3

Work done in last week (Advanced Networking and Exploitation Setup):

1. **Networking Deep-Dive:** Expanded on network concepts by studying different network types, network topologies, and communication protocols.
2. **Network Security:** Learned the core principles of network security and how infrastructure is protected.
3. **Metasploitable 2 Setup:** Successfully set up and configured the Metasploitable 2 vulnerable machine for safe, practical penetration testing.
4. **Port Exploitation:** Conducted practical port exploitation to understand how vulnerabilities in network services are leveraged. (incomplete some task)

Reason for incomplete work:

1. Health is not well

Plans for next week:

1. **Internet Architecture:**
2. **Data Transmission:**
3. **IP Addressing:**
4. **Web Fundamentals:**
5. **MITM Attacks:**
6. **OWASP Top 10:**
7. **Burp Suite:**
