

WEEKLY REPORT - 2

Work done in last week (Practical Exploitation and Network Basics):

1. **Malware Practical (System Hacking):** Performed hands-on system hacking practicals using malware. This included testing across multiple platforms such as Kali Linux, Windows, Linux, Parrot OS, and Android.
2. **Phishing Practical:** Conducted practical exercises on phishing to understand how this common attack vector is executed.
3. **Introduction to Networking:** Started with the absolute basics of networking, specifically covering "What is a Network."

Reason for incomplete work:

1. NA

Plans for next week:

1. **Networking Concepts**
2. **Network Security**
3. **Metasploitable 2 Setup**
4. **Port Exploitation**
